

### **Watson Staff Impression**

Watson is a handsome donor with a medium complexion; an amazing head of dark, wavy, hair; and a thick beard to match. His attractive face features high cheekbones, a chiseled jawline, deep-set eyes, and symmetrical features. He has broad shoulders and lean, muscular, build that he maintains with lacrosse, running, and powerlifting.

Watson is intelligent, composed, and has an inviting personality with a subtle sense of humor. His parents passed down to him their values of gratitude, integrity, and of helping others. Contributing to families who want to have their own children was Watson's motivation to join our program. He is a mature donor with a great understanding of the significance of being a donor.
