He is especially drawn to science and mathematics, enjoying the cutting edge technology and wanting to help others learn to apply this knowledge and technology to solve the world's problems. Aside from academics, Andres is also artistic and musical; playing guitar, keyboard and singing. When asked why he wants to be a donor, Andres answered, "I am aware of the troubles that couples can have in trying to conceive, and I feel fortunate to be able to help in any way that I can to allow a couple to start or build on their family together." Andres is a sweet, humble and insightful donor.
