

Charles Staff Impression

Charles is an incredibly attractive donor. He stands just about 6ft tall and has a strong athletic build. He keeps in such great shape playing multiple physically demanding sports like hockey and football. Charles has round, piercing green eyes that stand in contrast to his tan skin. He has a strong jawline and pouty, full lips. With his model good looks Charles could come across as arrogant, however he is quite the opposite. He is kind, compassionate and very approachable, all traits his parents instilled in him as a boy

Charles has many aspirations. He is currently in Flight training school and intends to use that to become a pilot for a major commercial airline. Charles is also very interested in acting and has become more invested in the pursuit of film/television work. Maybe someday we'll see him on the big screen. While Charles continues his many pursuits, we are happy to have him in the donor program. He is a great candidate for anyone wanting a great combination of looks and drive.
