

## Salah Staff Impression

We are very excited to have Salah in our donor program. He is compassionate, intelligent, handsome, and driven. A 3<sup>rd</sup> year medical resident, he plans to complete his residency and move into a medical practice. Salah is grounded and hardworking, when he does have some down time, which is rare he can be found on the golf course enjoying a few rounds with friends. Among his many talents he is quite musically inclined, playing the piano and saxophone. He also enjoys being in the kitchen, honing his skills and learning along the way.

Standing just under 6ft, Salah has an athletic build, maintained with regular workouts. He has a clear light tan complexion that compliments his thick and wavy brown hair and matching large round brown eyes. He is usually clean shaven, but a 5 O' clock shadow is not uncommon. He has an oval face, high cheekbones, full lips. Salah has full lips, dazzling straight white teeth and a genuinely kind smile.
