

Donor Huff

Huff is kind, intelligent, and an all-around wonderful person. He is tall, with silky, brown hair and bold, brown eyes. He has an average, medium build, and a nice smile. Huff has a background of being both mathematically gifted and gifted in writing, and he works as a technical writer. He has a lofty and humorous personality, while remaining calm and laid back. Huff is recently engaged; he enjoys going to the beach and traveling with his fiancé in his spare time. In fact, his face lit up in his interview, when speaking about their month-long vacation they took to Europe, how exciting!

Besides attaining high intelligence, Huff also enjoys watching movies and playing music. We were impressed to hear how he can play the piano, clarinet, and alto saxophone. Huff is a very empathetic soul and has a great head on his shoulders. We recommend him for any family!
