

Harlan 16010

Harlan is a real gem, with a relaxed and easy-going personality. He has a rounder face, dark hair, and kind, brown eyes. Harlan is driven and focused on his future. We were so impressed to hear that he currently works full-time at a technology company while maintaining attendance in school, and is working towards his Masters's degree in Business Administration. In addition to his hardworking attitude and driven mindset, Harlan never ceases to make time for his family and is still close to his younger brother.

Harlon is also very adventurous! We enjoy hearing about his travels, specifically his admiration for Budapest, Hungary where he studied abroad. In his free time, he enjoys hiking, backpacking, and spending as much time as possible outdoors and enjoying nature. Harlan truly has a heart for families who are wanting to conceive and always displays empathy. We are grateful to have him in our program!
