

## Shang Staff Impression

Shang is very attractive – he has a square jawline, full lips, and large almond-shaped eyes. He has a smooth, even skin tone, thick black hair, and perfectly symmetrical features. He is very fit, with a slender torso and strong shoulders.

Shang has a degree in Biology and is currently at the end of his Pharmacist internship. He excels at science and math, while also being fortunate to possess higher than average artistic abilities as an artist and painter. He is a very active person and enjoys basketball, swimming, tennis, and ice skating. Shang is a somewhat quiet person, but it's easy to see that he has a caring, calm, and laid-back demeanor. We think Shang is an awesome donor!
