His expressive full eyebrows frame round brown eyes that sparkle with his curious personality. Complementing his striking features is a distinguished Roman nose, adding a touch of classic charm.

Mackey is full of talent and energy being that he's a current mechanical engineering student. By night, he transforms into a chef, creating mouthwatering dishes. This ambidextrous dynamo is not only bilingual but quadrilingual, fluent in English, Spanish, Armenian, and Swedish. But his main hobby is building cars from the ground up, transforming scraps of metal to powerful masterpieces.
