

Open Donor: Holden

Staff Impression

Holden's cheerful disposition and fabulous smile make him a very attractive donor. He has dirty-blond hair that he sweeps to the side and dark-brown eyes that are shaped like half circles. Holden has a smaller build and a lean frame. His fair skin works as a perfect complement to his other facial features.

Holden has a passion for music that began when he was little. He sings as well as plays the tuba and bass trombone. He appreciates learning about new cultures, languages, religions, and has his mind set on traveling the globe, already having several countries under his belt. Holden, while a self-proclaimed perfectionist, has the fabulous ability to laugh at himself, too. Holden makes a fantastic donor.
