Probal is a civil engineering student who's not only studying construction but also gaining hands-on experience as a transportation intern. With his friendly personality and easygoing nature, he's the kind of person everyone loves to be around. Fun fact: he's a tuba player! When he's not busy with school or work, you'll find him on the basketball court, where he loves to play and even coaches kids. On top of that, Probal can read Arabic and memorized a third of the Quran in under six months—talk about impressive! He's also looking to become a donor, driven by his core values of "compassion and empathy" for others. Probal's got a big heart and an even bigger skill set!
