

### **Voss 20040 Staff Impression**

Voss has a clean-cut appearance with naturally handsome, approachable features. He has a youthful but mature look with symmetrical facial structure, an athletic, well-proportioned build, and an overall wholesome appearance that reflects his warm personality. His dirty blonde hair is styled in a neat, casual cut that frames an oval face with well-balanced features. His clear blue-green eyes convey kindness, complemented by a straight nose and naturally pleasant expression. He has fair skin that has healthy, neutral undertones. His tidy casual style mirrors his genuine, down-to-earth personality.

Beyond his appealing physical features, Voss has an impressive character and a desire to help others. With a psychology degree and a naturally curious mind, he's someone who values both intellectual growth and hands-on learning, whether he's exploring neuroscience concepts, working on 3D printing projects, or expressing his creativity through drawing and sculpture. His "golden retriever" personality shines through in his loyalty to friends and his passion for meaningful relationships, particularly the strong marriage he considers the foundation of his life goals. An accomplished long-distance runner who has completed half marathons, he balances his love for physical challenges with quieter pursuits like playing piano and dreaming of travel adventures. His motivation for becoming a donor stems from his deep desire to support others and his understanding of how precious the gift of family truly is, approaching this opportunity with the same humility, resilience, and thoughtful consideration that guide all aspects of his life.
