Cerrado 14712 Staff Impression

Cerrado is strikingly athletic with broad shoulders and muscular limbs legs conditioned by years of competitive sports. His face is an oval shape with high, sculpted cheekbones and a defined jawline that gives him a sculpted look. Thick, dark eyebrows frame his warm brown eyes. He has a medium-sized, rounded nose and full lips with a deep cupid's bow. He wears his dark brown curly hair in a relaxed, textured style that frames his face without overpowering it. His skin is smooth with a healthy, sun-kissed glow from time outdoors, a clear complexion, and no freckles.

Cerrado is a sharply analytical and disciplined athlete with lots of drive. He earned bachelor's and master's degrees in business and data-related fields, graduating with top honors, and now works as a senior data analyst. That same precision carries over from the field: he played competitive soccer at a high collegiate level, developing endurance, coordination, and teamwork, and he still stays deeply active with footvolley, surfing, and gym sessions, with guitar playing as a creative outlet. International travel has broadened his perspective, teaching him adaptability and an appreciation for different ways of living. He is humble, resilient, and competitive while remaining highly team-oriented, practical in solving problems, and supportive of those around him. Growing up in a close-knit family that emphasized hard work, consistency, and support gave him a deep sense of loyalty, responsibility, and gratitude. He carries those values with optimism and curiosity, always focused on personal growth. He's the kind of thoughtful person that makes things better for everyone around him.
