**Lycan 18148 Staff Impression**

Standing tall at 6'4" with an athletic build that speaks to years of physical work. Lycan is the kind of guy who draws attention without trying. His Polish and Swedish heritage shows in his striking features: dark brown hair that falls naturally across his forehead, deep brown eyes, and a strong jawline that balances perfectly with his straight nose. His sun-kissed skin tells the story of someone who spends plenty of time outdoors, and when he smiles, you notice the distinctive dimple that appears in the center of his bottom lip. He’s someone you'd want on your team for any adventure.

As a construction worker, Lycan brings a hands-on approach to everything he does, but don't mistake him for someone who's all work and no play. He's got an adventurous spirit that comes alive around water, whether he's kayaking down rapids or leisurely rafting with friends on a sunny afternoon. His wife loves to tease him about being "hungry for spaghetti," which captures his enthusiastic approach to life's simple pleasures. He's got a playful side too, with an oddly impressive ability to spin plates on his finger that never fails to entertain at gatherings. What motivated him to become a donor was his genuine desire to help families who are ready to welcome a child but need a little assistance getting there. He sees it as a meaningful way to contribute something positive to the world while helping others achieve their dreams of parenthood.
